

## How can I see how my credits apply to a different major or degree?

You can explore other majors or degrees, even Limited or Restricted entry Associate of Applied Science programs to which you want to apply.

- 1) Log on to [MyMHCC \(my.mhcc.edu\)](https://my.mhcc.edu)
- 2) Click the 'Plan and Register' tab
- 3) Click 'Plan Ahead'
- 4) Scroll down to Major Exploration and use the drop down menus to select majors or degrees you are interested in and the catalog year you wish to view (usually the current year is suggested)
- 5) Click 'View'
- 6) Click on the particular requirements (red links) that are not met

Please note: Major exploration will only show requirements you have not met. It will not show you a complete audit for the entire degree or certificate.
