Which Khan Academy Exercises Should I Do?

Math 111 & Beyond topics (Accuplacer College Algebra test topics)
These links go to College Algebra exercises*

- Finding the slope of a line given two points on a graph
- Factoring polynomials
- Relating a polynomial function to its graph
- Dealing with the imaginary number $i$
- Recognizing conic (hyperbola, parabola, circle, ellipse) sections
- Predicting the later values in a series
- Story problems involving the probability of a particular outcome
- Understanding exponential functions
- Rewriting a logarithm in exponential form
- Using the trigonometry (sine, cosine, and tangent) ratios to find missing lengths of a right triangle
